Tunstall Village

7 star energy homes

BESPOKE HOMES CRAFTED BY DESIGN

Just under 20km from central Melbourne, set back from the vibrant Nunawading retail strip, Tunstall Village is a beautifully landscaped community of smart homes that offers affordable style and convenience within reach of a huge range of suburban amenities.

A selection of these homes have a 7 star NATher energy rating due to a range of energy-saving inclusions for a more sustainable way of living.

56-74 STATION ST, NUNAWADING

At Tunstall Village a greener life awaits

Madison Quay are working with Tesla to create a range of premium, contemporary, smart homes that facilitate better living for a greener tomorrow. At Tunstall Village a selection of our homes have a range of energy solutions that can give your home a 7 star NATher rating.

Speak with one of our agents today to inspect homes that offer affordable ways to live a more sustainable life in the green community of Tunstall Village.

TESLA
POWERWALL

Self-Powered Home

Reduce your ongoing carbon footprint by creating a self-sufficient home and reducing your reliance on the grid.

Backup Protection

Solar and Powerwall provide instantaneous power during an outage.

Home Energy Monitoring

Seamlessly monitor and control your homes energy source and consumption in real time via the Tesla app.

The perfect new home is one powered by solar and Powerwall.

Power your new home with clean, reliable energy from the sun. Solar panels allow you to harness free, abundant energy from the sun during the day while storing excess energy in Powerwall for use after the sun goes down.

Powerwall allows you to use your solar energy to power your entire home including your vehicle charger day, or night - even during a blackout.

Sleek and Efficient

Solar blends into your roof with no visible mounting hardware. The result is a clean, streamlined, and maintenance-free system.

Continuous Power

Solar panels work seamlessly with Powerwall to ensure solar energy is available for your home and vehicle 24/7.

Increased Home Value

Solar paired with Powerwall is a long term investment that can increase the property value of your home.

Convenience

Pull into your driveway, plug in, and you will wake up to a full charge in the morning.

Lower Fuel Costs

Maximize fuel savings through the Tesla app by scheduling your vehicle to charge when electricity prices are lowest.

Fuel During an Outage

Solar and Powerwall provide energy during a grid power outage, enabling you to power your home and charge your car.

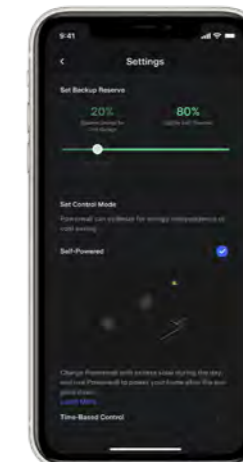

Artist Impression

Control Your Energy

Seamlessly monitor and automatically manage your Powerwall, solar panels, Model S, Model X or Model 3 with the Tesla app.

Backup Coverage

Reserve a certain percentage of your Powerwall to protect your home from a grid outage and extend the hours of backup.

Better Over Time

With over-the-air software updates, Tesla products will continue to improve and adapt to your lifestyle.

Artist Impression

Graceful design in
harmony with nature

The homes at Tunstall Village have been carefully conceived around understated forms and textures that blend seamlessly with local vegetation, creating a calm and revitalising atmosphere.

Timeless beauty

The warmth of natural materials melds with modern lines, lush greenery, and heritage flourishes to define a streetscape that is both contemporary and classic.

Creative cool

The architecture at Tunstall Village is full of surprising touches that add artistic flair to everyday life and cultivate an ambience of creativity and delight.

Creative vision from the Tunstall Village team

“The Tunstall Development offers well-proportioned townhouses using quality natural materials with neutral tones to compliment the local community lifestyle and surrounds.”

Ljiljana Gazevic
Director
SJB

“The landscape has been designed so residents can enjoy seasonal change. Canopy trees, native fan palms and lots of native grasses and shrubs will provide flowering interest throughout the seasons. Open plan interiors flow seamlessly to the generous entertaining terraces.”

Jack Merlo
Director
Jack Merlo

“A community with history at its core, both conceptually and physically, embodied by the retained heritage smokestack from the former Daniel Robertson Brickworks sitting proudly at the heart of the site.”

Village verve

Tunstall Village's location near the heart of Nunawading puts a startling array of amenities within easy reach, from numerous shops and restaurants to parks, sporting facilities, schools, and even a university. Nunawading Train Station, within an easy walk, can connect you with multiple vibrant neighbourhoods, including nearby Mitcham and Blackburn, in a matter of minutes.

Future retail development to include a range of suppliers (butchers, bakeries, and supermarket convenience).

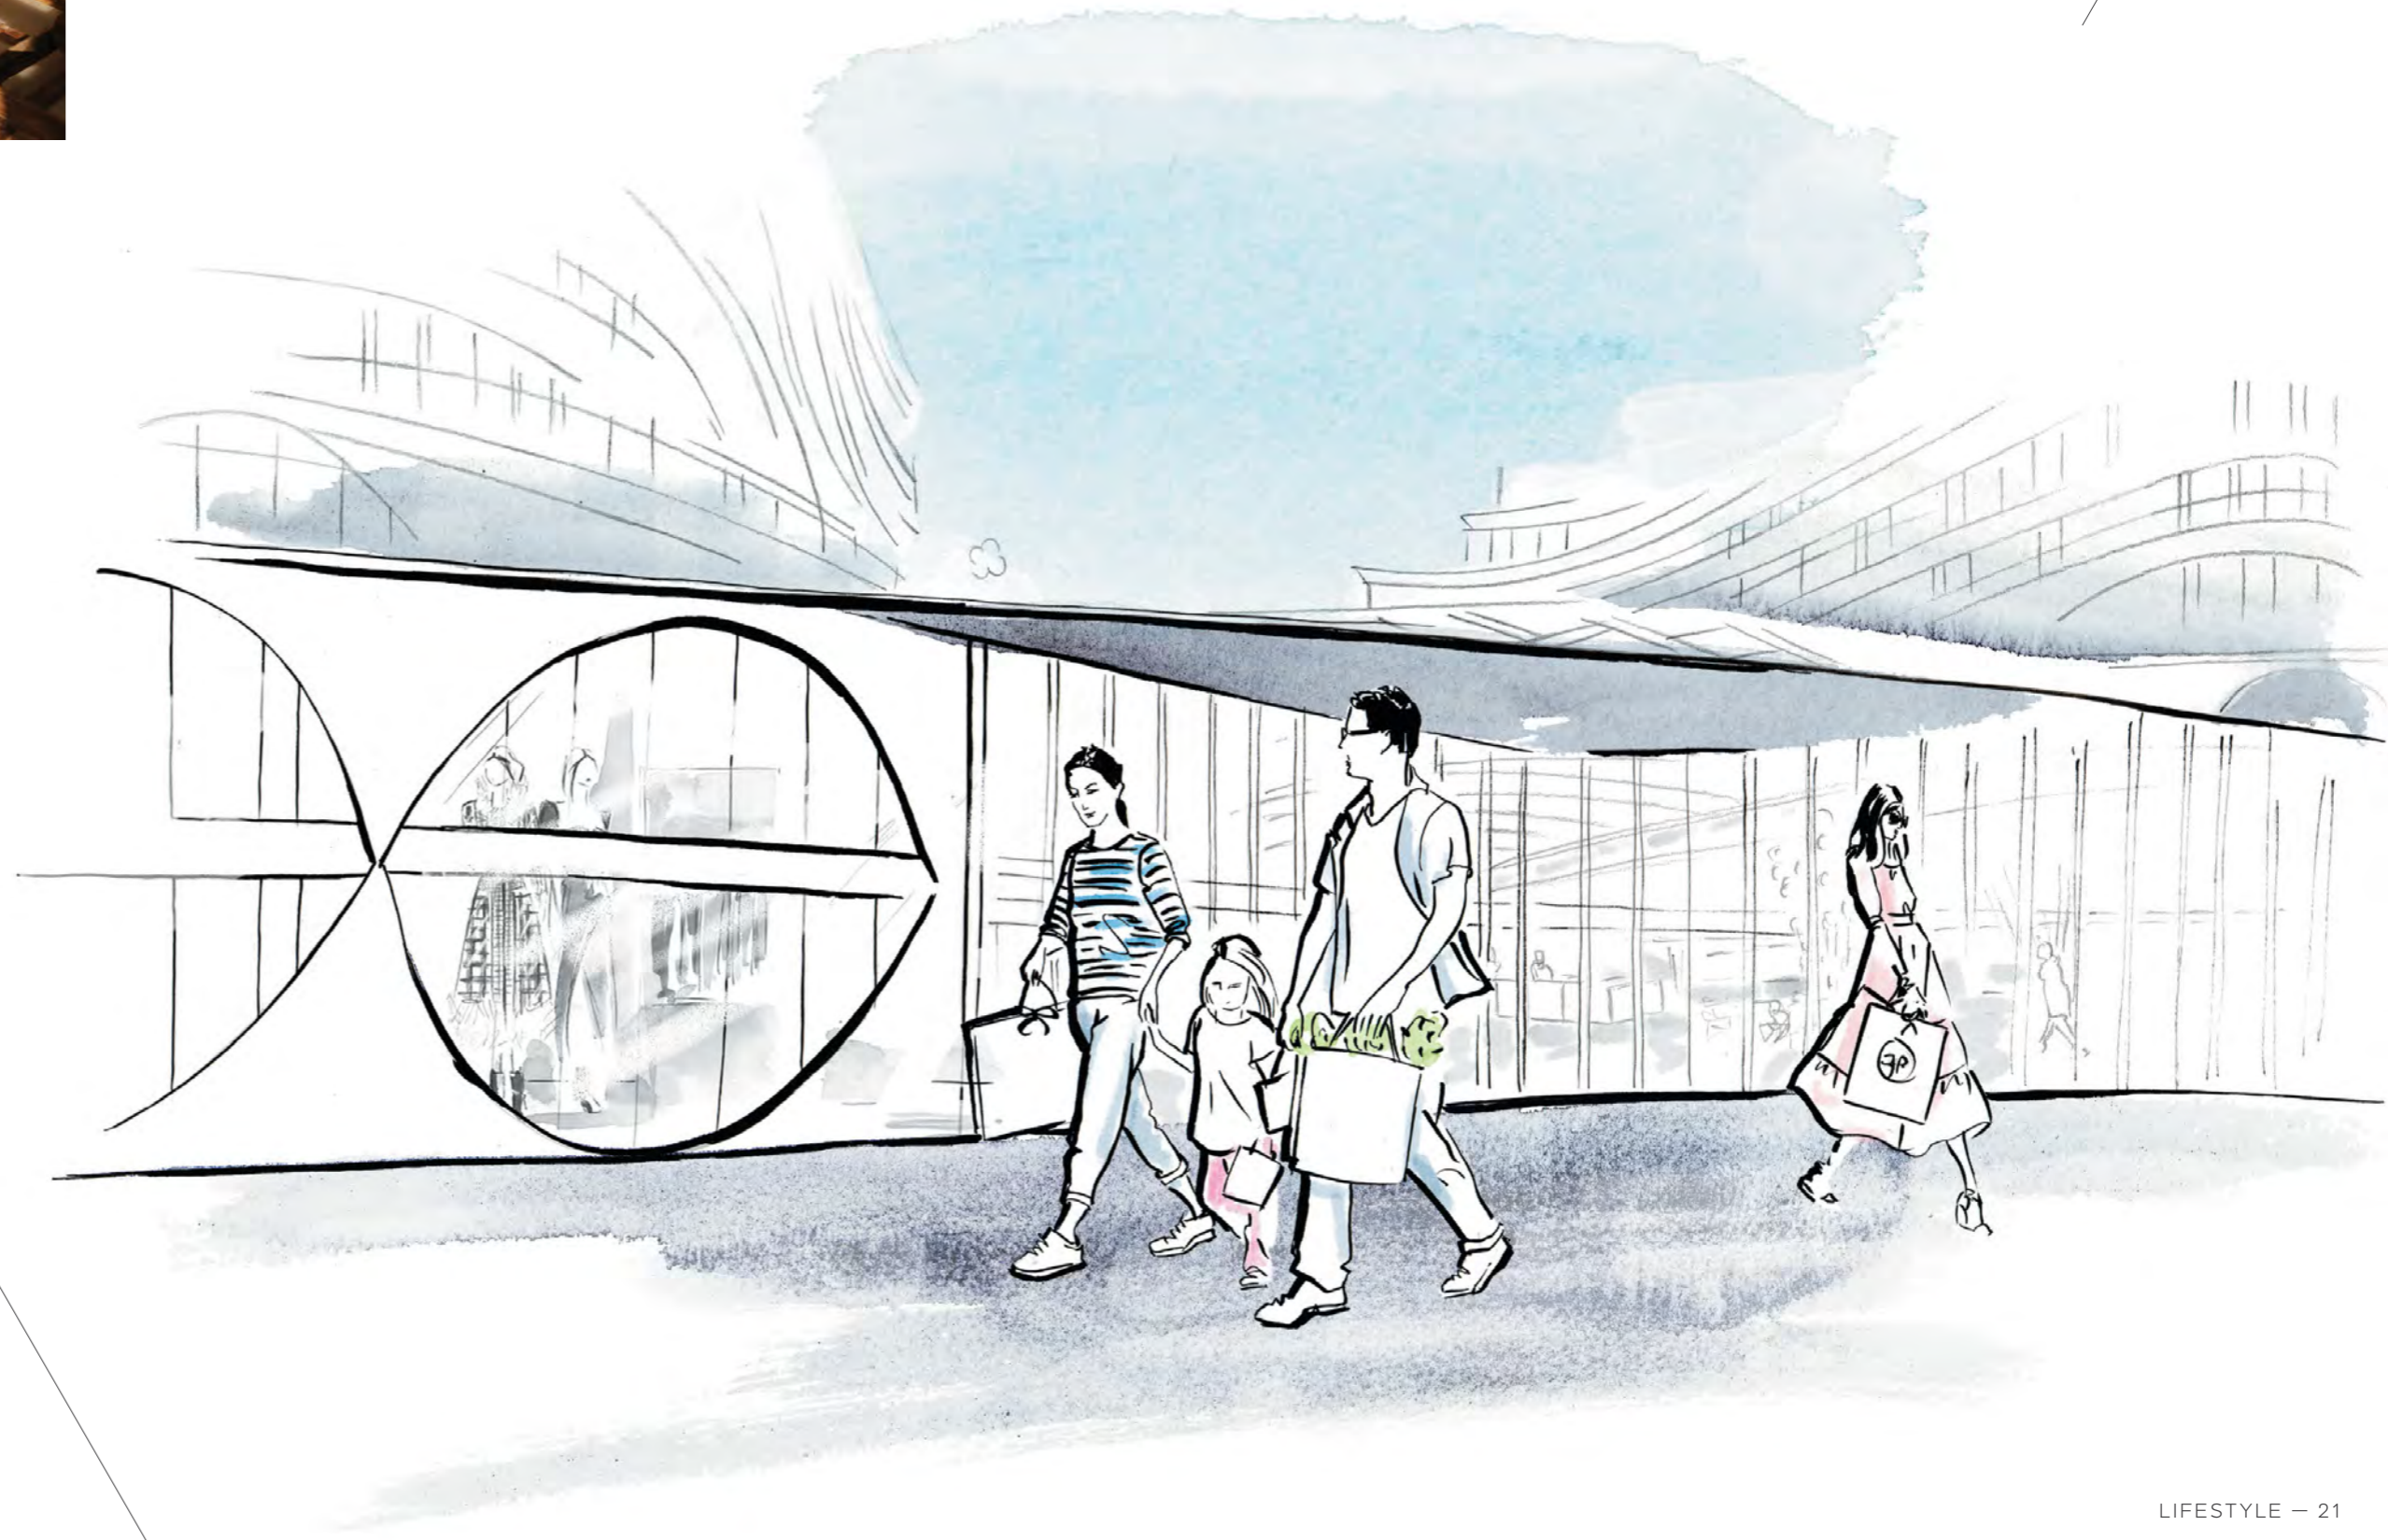

Serious shopping

Nunawading has such a reputation as a shopper's paradise that the local council dubs Whitehorse Road "The Mega Mile". Numerous large retailers and malls give the neighbourhood an appeal that draws customers from across the city, sustaining a lively retail and restaurant culture.

Future retail precinct

Tunstall Village offers residents on-site retail and grocery shopping convenience with its commercial precinct of 10,000 square metres.

This mixed-use area, next to the main entrance will house supermarket, childcare, cafe, and restaurant choices all within the Tunstall Village community.

Room to move

Tunstall Village is ringed by both small neighbourhood parks like the nearby Wood Street Reserve, Charles Rooks Reserve, and Nangrak Garden, and large suburban green spaces like the Blackburn Lake Sanctuary and Eastern Freeway Linear Reserve.

Tunstall Village is just five minutes' walk from Nunawading Station, which offers connections to the city and surrounding suburbs on the Belgrave and Lilydale lines. Major roads criss-cross the nearby area, giving easy access to all of Melbourne's delights.

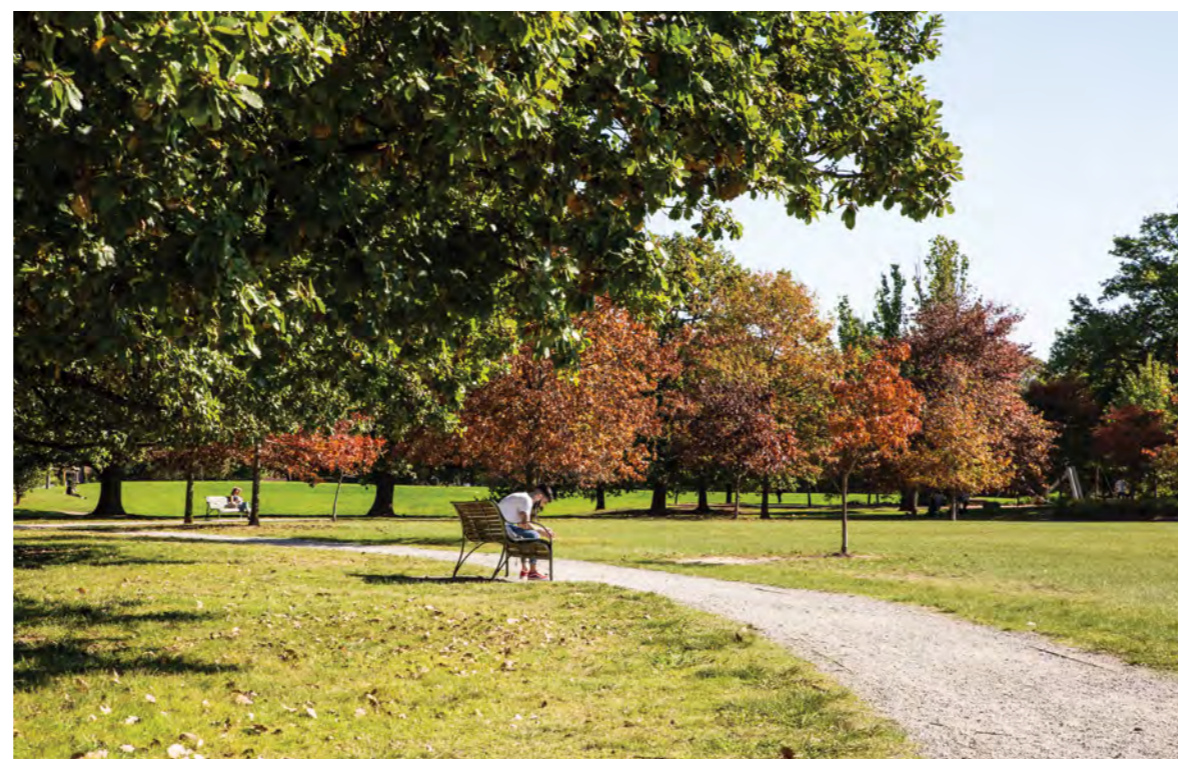

The local area is home to an array of high-quality public and private schools, including the renowned Box Hill High School. Even higher education is at your doorstep, with Box Hill TAFE and the main campus of Deakin University both nearby.
